**INNOVATIVE**  
SOLUTIONS FOR BEVERAGES

YOUR BUSINESS, **OUR SOLUTIONS**

# ABOUT OUR COMPANY

SINCE 1971, NEWMAPAK HAS BEEN FOCUSED ON PROVIDING QUALITY EQUIPMENT AND INNOVATIVE SOLUTIONS TO THE BOTTLING INDUSTRIES.

Our focus remains to provide our customers with the latest technology while maintaining the highest quality of product and service.

Newmapak is family owned and managed, with two generations actively involved in the day-to-day operations. We specialize in the supply of processing, bottling and packaging equipment.

## WHAT WE DO & HOW WE DO IT

For over 50 years, we have been providing our customers with outstanding, state-of-the-art equipment for their **wine, spirits, beer, cider and liquid foods** production.

By combining our extensive experience and knowledge of packaging for the beverage and liquid food industries, Newmapak successfully collaborates with customers seeking an increase in equipment quality, site productivity and overall technological improvement for all types of packaging requirements.

# OUR VISION: PASSION & INNOVATION

Newmapak Ltd feels strongly about representing the most innovative product lines for the market. Our team combines passion and commitment to the bottling industry with a flexible approach. This allows us to offer standard or custom solutions that will allow your team to reach and surpass its goals.

## OUR 4 PILLARS

**Customer Focus** and management efficiency with the highest quality and service.

**Excellence** and leadership in all core business areas.

**Innovation** is developing forward thinking solutions for our customers.

**Connectivity** with our clients and partners building personalized, seamless and engaging relationships.

### ROBERT KUCEY

CEO, Newmapak

*We want our customers to think of us as a responsible company that works closely with our clients to provide them the best possible quality. We can shake hands; We become friends; We become family; They can call us in the future knowing that we will always do the same thing for them.*

# OUR SERVICES

## CONSULTING SERVICES

The Newmapak team can assist you in finding the perfect solution for your processing, bottling, and packaging needs.

## PROJECT MANAGEMENT

Offering the right equipment and the right approach is crucial, but managing the delivery, installation and the setup of your bottling line are equally important.

## INSTALLATION AND STARTUP

Newmapak along with its partners ensures your installation goes as planned. A start up process may be applied not only to new projects, but also to existing bottling or packaging lines that are subject to expansion, updating or revamping.

## TRAINING

We can work with your team to put together a training program focusing on the safe use and proper operating protocols of your new or existing equipment or bottling line.

## MAINTENANCE AND REPAIR

Our maintenance team will help you reduce equipment downtime, improve production efficiency while prolonging equipment life.

## THEY HAVE TRUSTED US

Newmapak successfully collaborates with customers seeking an increase in equipment quality, site productivity and overall technological improvement for all types of packaging requirements.

# OUR PARTNERS

Newmapak works in close collaboration with award winning European and North American manufacturers recognized for their excellence in design, reliability and performance for the bottling industry.

## Newmapak's Partners:

## IN ASSOCIATION WITH:

Our team of experienced professionals provides a wide variety of value-added services, from project management, installation as well as a proactive maintenance plan.

# OUR PRODUCTS

Regardless of your production needs, let our expertise of over 50 years help optimize, automate, and simplify your bottling and packaging line while ensuring you have the best ROI for your business.

## PROCESSING

Newmapak works with leading companies in this sector to offer the beverage industry with avant-garde solutions. Our beverage processing equipment ranges from filters to refrigeration systems, from conversion processes to storage systems and packaging.

The industrial sectors that benefit most include wines, spirits, beer, fruit juice, water, and any other liquid food. All the beverage processing systems designed and constructed by our suppliers are easy to manage and safe, and can be delivered with high levels of automation.
